

GALILEE CATHOLIC LEARNING COMMUNITY STAGE 1

The Galilee Catholic Learning Community, currently accommodating 85 students ranging in age from five to eleven years, is situated on a flat treeless former barley paddock on the western outskirts of Aldinga Beach. It is the first built stage of the enveloping Galilee Catholic Community, a local group of the Catholic community focussed on providing a welcoming, faith-centred environment for life-long learning. Stage One of the community includes car parking, swale, retention pond and the first of the learning units; a collection of inter-related flexible learning spaces.
